HD SERIES ONE
5.1 HOME THEATRE SPEAKER SYSTEM

Centre Speaker

The Accusound HD Series One centre has 2 x 125mm woofers and a shorter length horn loaded tweeter to match the woofers for time alignment. This centre has superb midrange and highs. You can hear every word with ease. The centre has a power rating of 200 watts continuous power. The centre is finished in hi gloss piano black. You have the choice of mounting the centre on the wall using 2 Accusound Slim Fit wall brackets supplied or place the centre in a cabinet below the TV. The centre has twin gold plated terminals.

ACCUSOUND HD

HD SERIES ONE

5.1 HOME THEATRE SPEAKER SYSTEM

The Accusound brand has been in existence for a number of years, having been launched back in 1990.

It continues to receive recognition from both domestic and overseas markets for its outstanding range of speakers. Proudly Australian owned and operated.
