HD SERIES ONE
5.1 HOME THEATRE SPEAKER SYSTEM

Bookshelf Speakers

The Accusound HD Series One bookshelf speakers have been designed for stereo for people who want good small stereo speakers. They have also been designed for rear surround speakers for home theatre systems. They have 1 x 125mm woofer and 1 horn loaded tweeter. They are fitted with Bi - Wire terminals that can be used for stereo or using the gold straps that link the tweeter and woofers for surround application. The speakers are ported to give good bass response and are rated at 200 watts continuous power. They come with Accusound Slim fit wall brackets for mounting on the wall. These bookshelf speakers are finished in Piano gloss black.

ACCUSOUND HD

HD SERIES ONE

5.1 HOME THEATRE SPEAKER SYSTEM

The Accusound brand has been in existence for a number of years, having been launched back in 1990.

It continues to receive recognition from both domestic and overseas markets for its outstanding range of speakers. Proudly Australian owned and operated.
